Of course, chasing the other two arcs will benefit you more XP, better gear and more appreciate Ubisoft's open world ships, but this is the main arc we'll be dealing with here. There are many other storytelling options and actions that affect the game world, including NPCs and side task chances, but they won't be relevant to the outcome of a basic family story, so don't worry about ruining your passing, dabbling in some side fun quest. :: The 20 best PSVR games you really have to play so you make six basic decisions in a certain way to achieve the best of Assassin's Creed Odyssey over nine chapters and you have to make the right choice or you will torpedo your efforts. Here's a rundown of each of these key points and how to play your hand right when they come around. Spare Nikolaus's life during your encounter in the chapter TwoRegardless whether you play as Alexios or as Cassandra, you end up coming face to face with the person who threw you to your death as a child. In order to meet the wolf of Sparta in person, you will need to perform some tasks for his new adopted son, Stentor.This will lead you to the mission of the Last Push in the second chapter, where you will participate in your first battle of conquest. You will fight alongside the Spartans against the Athenians, so you will need to kill enough soldiers to drain the blue bar on the screen (focusing on the captains will speed up the process greatly). When the battle is over, Stentor will talk to you, but get away with bad taste in your mouth when the Wolf asks for your presence and yours alone. When you finally meet Nikolaus in person (as part of the Wolf of Sparta mission), you will reveal your true identity and demand to know why your own father threw you to your doom. When you remind him that there is a reward on his head, you have the following two options: I came to take revenge and I came to get answers. Choose a second one, as this ensures that Nikolaus lives (so you can run into him again in Chapter Seven). When you meet Deimos and tell Mirinna that you will help save Deimos from the cult-up chapter 3, you go to the Forge, where you will strengthen the power of the Swarm of Leonida. When you leave, Deimos will be waiting for you. The conversation that follows can escalate into a fight, since Deimos is so unstable. Avoid this at all costs by choosing passive answers that repeat that you want to save him from a cult, and stop them manipulating with it. Later, in chapter six, your plan is to uncover a Spartan leader known as Pheonix who reveals their identity as Myrinne, your estranged mother. After all, you'll have a conversation with her about Deimos. Since it is actually Alexios, your little brother, you will have to tell Myrinne that you want to help save Deimos and not avenge him for what he has done to interfere with your actions so far. This dialogue is very easy to miss as it is so subtle, but the choice The option will ensure you stay on track to Ending. Convince Nikolaus to intervene with Stentor and not fight Stentorovod at the end of the seventh chapter, you will be sent an assistant to the Spartan general in the area of Boetia. He will accuse you of a mission to kill the four champions of Boeoti to weaken the Athenian army before the battle for conquest is coming. :: The 20 best PS4 games you can play right now kill three of them, then when you go to kill the fourth, you will find them fighting someone. It's Nikolaus! Ever since you spared his life in the second chapter, he's come back from guilt to help Stentor. In this conversation, you have to convince him to go to Stentor and offer his support personally. If you don't think about it, it's not so good after the fight. The return to Stentor, and the battle of conquest in Boeotia will begin (mission for this 'Conqueror'). Focus on the captains, kill Merck, and then win the battle. After the dust settles, Stentor and Hero will speak out. However, it is clear Stentor has the score to settle and - regardless of your dialogue choice - the two will start circling each other ready for battle. At the last moment Nikolaus intervenes and stops the fight, convincing Stentor that he is up to the task. Convince Deimos that the Cult manipulates you both in chapter EightIn the end of the seventh chapter, after a fight with Deimos, the tree will fall on him. Choose the Hold! option to help with the conversation that follows in the next chapter. At the very beginning of the eighth chapter, you will be in a prison cell and Deimos will come to interrogate you. Choose the following options (in the order shown) to convince him that the Cult of Cosmos is manipulating them: It was a prophecy. Our mother was looking for you. She thought you were dead. I was dumped, too. This will see Deimos answer I'm not your puppet!, when Cleon tells him to leave. If he says this, you know you made a big impact on him and helped your chances of getting a happy ending. There may be other ways to achieve this reaction from Deimos, but it was the one we used. Refuse to fight Deimos in the chapter nineFollowing battle, Deimos will be struck by Kleon's error shot.You can't go back to his fallen form, so instead chase for Cleon and kill him. When Chapter Nine begins, head to the top of the cliff where your story began and face Deimos. He's recovered now, but he's ever been angrier. Choose the most passive options in the dialogue, then, when he challenges you to fight, refuse. Then you offer Deimos your spear, he will break, and the family will be united again. There will be a short cutscene back at your old family home where - if you pulled off the best end, you'll see Hero, Deimos, Myrinne, Nikolaus and Stentor all sat down for dinner.
